## Comments

- "WOW! This is the best piece of vehicle tech. I have bought in years. Works so well, in fact, I want to fit it to my wife's BMW X5 on a semi-permanent basis." -- Paul Salters (October 14, 2006)
- "I love that thing. I think it's going to pay for itself. It's telling me that the spark is being retarded on regular gas to the point that if I change to premium I'll get better mileage." -- Calvin L. McDougal (Mar. 10, 2006)
- "Those of us who drive vehicles with Ford V10's really like the product. The gauges provided in modern vehicles (temp, etc.) are hard to read and inaccurate." -- Tom Comstock (Dec. 1, 2005)
